Election/Restrictions

Claim 14 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 16-18, directed to the species of figures 15 and 17 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record fails to how or render obvious with respect to claims 30-41, a tubular medical fluid set having an in-line bubble trap chamber in combination with all the elements as claimed structurally and in functional relationships as claimed and further comprising a port with a port tube adjacent the side wall of the chamber and having an inner tube for directing flow circumferentially and a baffle to convert flow above the tube end into turbulent flow.
